OVERVIEW

Hi! I am Ali Heider Swccho. Full Stack Web Developer with a flair for creating elegant solutions in the least amount of time with latest technologies. With experience more than three years developing solutions with well-maintained code and quality maintained is a key goal. Understanding the project requirement is the secret which helps me understand and manage project quality easily and accurately.

I am experienced with developing multiple web applications using ReactJS, VueJS, Vuex, Vue Router, Angular cli, ngrx and Axios, ES6. I have also worked on Laravel VueJS SPA project. Also experienced in raw php and Laravel. I am familiar with Laravel MVC Pattern and the huge package library of Laravel.

I am also familiar with Flask, a python framework for web development. And Tkinter is a Python binding to the Tk GUI toolkit. I have handled ubuntu server and linux servers.
